The housing delivery programme is progressing but what can we do to accelerate it further?

What delivery model has the best potential to boost council housing building?

- A registered provider and local authority partnership?
- A local authority delivering alone?
- Hybrid models?
- A local authority/private developer partnership?
- GLA's delivery arm?

Debate and discussion about practical solutions

Key Themes:

- Are registered providers and local authorities competing or helping each other?
- What challenges are we faced with and how can we overcome them?
- Looking at potential opportunities for the future

To book your place:

Visit the dedicated webpage for the event to book your place.

Alternatively visit: www.cih.org/eventsfinder Select 'London' as the location search and choose this event from the list -you can then book online.

Speakers:

- Helen Evans, chief executive of Network Homes and Chair of G15
- James Murray, deputy mayor for Housing London City Hall
- Pat Hayes, managing director of Be First

Key issues to be covered:

Current challenges and opportunities, Mayor's vision for housing new build programme, alternative models for delivery and GLA's latest vision. A chance to meet and build relationships with other housing professionals

Who can attend:

Property directors, development directors, asset managers, senior managers, chief executives from local authorities, ALMOs and registered providers.
