

HILTON LONDON METROPOLE, LONDON

£52m
Budget

1,059
Bedrooms

42
Conference Rooms

Successful renovation of one of the largest hotels in London

We were appointed project managers and quantity surveyors on the complete renovation of the Hilton London Metropole, including guest rooms, public areas and the hotel's events spaces.

Hilton's largest property outside of the US, and one of the biggest hotels in London, our team delivered this project through the pandemic and with minimal disruption to the running of the hotel.

The 1,059 guest rooms and suites went through a striking transformation, along with the venue's four restaurants and bars.

Extensive renovations have also been made to the hotel's 42 event spaces and meeting rooms, including two dedicated hybrid meeting rooms and three ballrooms, which total over 4,600sqm.

Client:
Henderson Park

Sector:
Hotels

Services:
Project management
Quantity surveyor
